WHAT YOU HARVEST

One connected solution across finance, sales, service, and operations.

01

Transform business operations

Connect finance, sales, service, and operations teams within a single management solution — and harness the power of AI with **Microsoft Copilot** to speed up tasks and make better decisions.

02

Stay ahead of your competition

Gain increased financial visibility and robust reporting, with AI-powered business intelligence guiding your best upsell, cross-sell, and renewal opportunities.

Optimize inventory and supply-chain management with predictive sales forecasting to improve accuracy.

03

Meet customer demands

Deliver better outcomes with connected service operations and prioritize leads by revenue potential, with Copilot marketing-text suggestions to drive sales.

Enhance engagement by managing the entire sales process from within Outlook.

04

Optimize business operations

Protect your data and maintain compliance with world-class identity protection, role-based access, and encryption.

Make more profitable decisions with robust reporting, Copilot AI insights, and connections to Excel and Microsoft Power BI.

05

Empower your workforce

Use next-generation AI and automated workflows to streamline processes, speed up tasks, and boost productivity.

Work seamlessly with the Microsoft 365 apps you already know — Outlook, Excel, and Teams.
